Millions of Lives.

An Awful Toll Collected by Consumption. Many Un-necessary Deaths.

If people could only understand that systemic catarrh is an internal disease that external applications cannot cure, they would not need to be warned so often about the malady, which, when neglected, paves the way oftentimes for consumption, at the cost of millions of lives every year. Yet catarrh may be cured, if the right treatment is employed.

The only way to successfully treat catarrh is by employing a medicine which is absorbed and carried by the blood to all parts of the system, so that the mucous membrane or internal lining of the body is toned up and made capable of resisting the infection of consumption and other diseases.

We have a remedy prepared from the prescription of a physician who for thirty years studied and made catarrh a specialty, and whose record was a patient restored to health in every case where his treatment was followed as prescribed. That remedy is Rexall Mucu-Tone. We are so positive that it will completely overcome catarrh in all its various forms, whether acute or chronic, that we promise to return every penny paid us for the medicine in every case where it fails or for any reason does not

satisfy the user.

We want you to try Rexall Mucu-Tone on our recommendation and guarantee. We are right here where you live, and you do not contract any obligation or risk when you try Rexall Mucu-Tone on our guarantee. We have Rexall Mucu-Tone in two sizes, 50 cents and \$1.00. Very often the taking of one 50-cent bottle is sufficient to make a marked impression upon the case. Of course in chronic cases a longer treatment is necessary. The average in such instances is three \$1.00 bottles. Remember you can obtain Rexall Remedies in Baxter only at our store—The Rexall Store. M. E. Reddy.

Law is Upheld.

Kansas Bank Guaranty Law is Sustained by the Highest Court in the Land.

The Kansas law, guaranteeing bank deposits, has been upheld by the highest court in the land, the United States Supreme Court. This law has been a matter of contention in the courts for a long time. Judge Pollock of the United States Court of Appeals, knocking the law, but a case was taken to the United States Circuit court, where the law was sustained. From this court the case went to the Supreme Court, and the law was sustained in every particular. And not only was the Kansas law sustained, but the Oklahoma and Nebraska laws as well. And not only did the court sustain the law, but commendatory remarks were made on it.

This is a great victory for Kansas, and the banks of the state. The Baxter State Bank operates under the guaranty law.
